

## Connect and Retrieve Formats – Windows Mobile SDK – C#

The sample demo application with source code is intended to provide an example of how to connect to Zebra printers via Bluetooth, TCP, and Serial from a Windows Mobile environment using the Zebra Multiplatform SDK. Then it retrieves a list of the formats stored on the Zebra printer and finally allows the user to select and print a stored format on the Zebra printer.

The application was developed using Microsoft Visual Studio 2008 with the Windows Mobile 6.0 SDK. The application is designed to run on Windows Mobile 6.1 and requires .NET Framework 3.5.
